WINTER EDITION 2022

LAKESHORE LIGHT

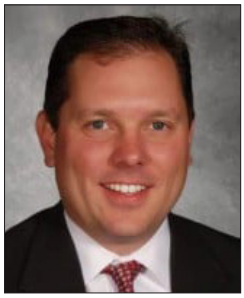
Twenty-four Lakeshore host families and their German guests enjoy the SSEP Farewell Dinner (PAGES 4-5).

The LEF is supporting three, new major projects: Technology Refresh for our elementary students, New Teacher Recruitment, and Current Staff Development through Professional Learning Communities – PLC's.

LEF NEWS INSIDE

Grounded in Tradition – Committed to Excellence

Message from the Superintendent



Superintendent Greg Eding

The holiday season is a reminder to each of us. No matter the circumstances, whether it's joy, happiness, frustration, or sadness; you can always find a way to be thankful. As I reflect on the past year, I am reminded that the most challenging moments provided the most rewarding experiences. As we enter this holiday season, I urge each family to find their own Thanksgiving and lead with a grateful heart.

We are grateful for the financial support of the **LAKESHORE EXCELLENCE FOUNDATION** and for the efforts of the LEF all-volunteer board.

Earlier this school year, we asked the Lakeshore community to complete a survey regarding a potential capital bond project.

Perspectives Consulting, a survey company located in Paw Paw, managed the survey and has provided our district with the survey results. The survey was completed by 1390 Lakeshore residents, which is fantastic. I would like to thank everyone for taking the time to complete this survey and to provide us with your feedback.

We have posted the survey results on our website. There are two reports, one is the General Community Survey Report which contains a summary of each of the questions from the survey. The second is a document which contains all the comments that were submitted. You can access the reports by going to LPSLANCERS.NET. You can also use this QR code.

The Lakeshore School Board and Administration are reviewing the

*The February meeting will be held on the third Monday. The January meeting will be held on the 4th Monday.

Message from the Superintendent Continued ...

survey data to determine our next steps. Two takeaways that I quickly learned from the survey are that we need to communicate more effectively with the Lakeshore community. And the Lakeshore community really loves its school district. Any decisions on future plans will be communicated within the next few weeks. Thank you again for your feedback!

Thank you for sharing your student with us at Lakeshore schools. It is our pleasure to work with you to support your student towards being a successful, contributing member of society.

Sincerely,
Greg Eding, Superintendent
Lakeshore Public Schools

LEARN BY HEART!

WE INVITE YOU TO SHARE YOUR STORY!

GO HERE TO SHARE: lpslancers.net/domain/662

We are looking for stories that share your positive interactions and experiences with Lakeshore teachers, bus drivers, school lunch staff, paraprofessionals, custodians, coaches, librarians, administrative assistants, and anyone who is an important part of a students educational success.

KEY CLUB

Key Club is an international, student-led organization that provides members with opportunities to provide service, build character, and develop leadership. Key Clubbers work hard to give back to the community and better the world around them. Key Club's larger purpose creates a bond among members. Mia Bradley, a second year member, notes she "love[s] being able to create a positive impact" in the community that "has done a lot for [her]." She says "Key Club is a fun way to give back."

Race for Rare Kids on Lake Michigan

Many members say their favorite annual event is the **Race for Rare Kids on Lake Michigan**. This 5k walk/run event is an inclusive event that seeks to honor all "rare" children impacted by different diagnoses, different abilities, developmental delays, or disabilities. Isaac Smith, a fourth year member of Key Club, points out that after volunteering at the Race for Rare Kids, he felt "grateful to have a chance to physically support such an important cause."

Roadside cleanup

Key Club offers multiple **roadside cleanup** events throughout the school year. Members can be spotted in bright construction vests, gloves, and trash bags, picking up trash around the community. Although the work is far from glamorous, Key Clubbers make the most of it. Keiran Allan, a first year member, says "I liked joking around with my friends [during roadside cleanup]...that keeps it fun." By working together, members are able to keep our community clean and free of litter.

With over 130 members, Key Club is the largest club at Lakeshore High School.

On Thursdays, members collect every teacher's **recycling**. Cydney Bacon, a first year member, points out that "recycling makes the school look nicer" and it makes her feel like she's "helping take care of the school." In only 30 minutes, members create positive change around the building and help minimize our school's carbon footprint.

By encouraging students to stay active in our community, Key Club teaches members important values and life skills. Key Club has taught even first year members, like Carly Whitelaw, important lessons. Whitelaw points out that Key Club has taught her "what volunteering means to [her]" and "what [she] can do to help other people." Ethan Ganum, a fourth year member, says Key Club has taught him to "try new things." After volunteering in a variety of events, Ganum notes that making a positive impact "feels amazing."

For 59 years, Lakeshore High School Key Club has offered members countless opportunities to create a meaningful impact in our community. Key Club is more than a club, it's an extension of Lakeshore Public Schools, a club grounded in tradition with members committed to excellence.

SISTER SCHOOL EXCHANGE PROGRAM

Lakeshore established the Sister School Exchange Program in 2018.

This unique opportunity invites students from Lakeshore High School to join students from Gesamtschule Hardt in Mönchengladbach, Germany in a short-term, reciprocal exchange program. Students from both schools host their international partners for two weeks, inviting their guests to experience each other's cultures, tour local sites, form lasting friendships, and learn about the world through meaningful experiences.

The exchange is coordinated by a team of teachers and administrators at Lakeshore High School and Gesamtschule Hardt, but the success of the program depends upon the close collaboration of parents, students, and a supportive community.

2022 Graduate Rileigh Wine Represents Lakeshore at a Gala in NYC

In October LHS graduate Rileigh Wine (Class of 2022) was a guest of honor at a gala hosted by Goethe Institute in New York City.

The formal event commemorated the 50th Anniversary of the German American Partnership Program (GAPP), an organization that facilitates international student exchanges between the US and Germany. Rileigh Wine experienced the benefits of GAPP through her participation in Lakeshore's Sister School Exchange Program. Representing over 400,000 student participants in GAPP since 1972, Rileigh spoke in front of an audience that included members of the US State Department, the German Parliament, and the President of Goethe Institute. She explained, "I went to Germany with the expectation that it would be just like America... but what I found was that our countries are quite different... Our differences allow us to discover new perspectives and new ways of looking at the world. I now know that an empathetic and sustainable future is, in fact, possible, and that my contribution in that world matters." Rileigh's speech and video presentation highlighted the value of student exchanges and global collaboration. While in New York she was accompanied by LHS teacher and SSEP Coordinator Amy Perkins. Lakeshore graduates Lucia Gianni (2022) and Nick Forrester (2007), both of whom now live in NYC, joined Rileigh and Ms. Perkins, kindly leading the two on a casual tour of the Big Apple.

(L-R: LHS Graduate Rileigh Wine, Wood Powell–Managing Director of the Transatlantic Outreach Program, LHS Teacher Amy Perkins, Molly Rowland–Executive Director of GAPP)

A Transatlantic Team: Lakeshore Reunites with Friends from Germany

German and American SSEP participants gather with their teachers during a guided hike through Grand Mere State Park.

In late September Lakeshore students happily reunited with their dear friends from Gesamtschule Hardt, our Sister School in Mönchengladbach, Germany. Our combined delegation of 26 Germans and 24 Lakeshore host families spent 2+ weeks together here in Stevensville. Students attended classes at the high school, toured local sites, and experienced the natural splendor unique to our region. They bonded over bonfires, bowls of spaghetti ice, and spirited soccer games. They carved pumpkins, explored the Windy City, and sacrificed sleep amidst late nights of socializing.

During their time together, the German and American participants also researched new developments in sustainability and renewable energy.

SSEP by the Numbers

26 German guests
24 Lakeshore host families
22 Lancer ambassadors
17 days together
6 site visits
0 COVID cases

---

1 unforgettable experience

They met with executives onsite at *Whirlpool Corporation*, the *Cook Nuclear Plant*, and *Inovateus Solar*, examining ways in which our community is "going green" in an effort to secure a more sustainable future. Students talked with Representative Fred Upton, who offered valuable insights from his term as the Chair of the House Energy and Commerce Committee, and they learned from retired Lakeshore teacher Lynda Smith, who led students on a guided hike through Grand Mere State Park.

These valuable learning opportunities underscored one fundamental truth for our transatlantic team: Any attempt to curb and possibly reverse climate change must be a coordinated, international effort. Thanks to the Sister School Exchange Program (SSEP), our German and American scholars are better positioned to help lead this effort. Global programming like SSEP is an essential part of preparing our next generation for citizenship in an increasingly interconnected world. SSEP is just the first step in making this programming a reality at Lakeshore Public Schools.

SSEP remains grateful to its corporate partners, the German American Partnership Program, Lakeshore Excellence Foundation, Lakeshore Rotary Club, and local donors who generously support our short-term reciprocal exchange program.

Applications for the 2023-2024 Sister School Exchange Program will be available in February. For more information, contact Ms. Amy Perkins at aperkins@lpslancer.net or visit our program website https://aperkins059.wixsite.com/ssep

CTE PROGRAM

CNA students prepare for the Pumpkin-ectomy project.

Pumpkin-ectomy Project

Savannah DeVries, BSN, RN, OCN leads students in a very interesting project each year. Creatively titled, "pumpkin-ectomy," this project is a culmination of what students have learned over several chapters in the Certified Nurses Aid course (CNA). CNA is part of the Career and Technical Education (CTE) program at Lakeshore High School.

Completed Pumpkin-ectomy Project

In the chapters leading up to pumpkin-ectomy, infection control and prevention are covered. Students learn the first skill that may be chosen to be performed during the state CNA examination -- *Donning and Doffing PPEs (Personal Protective Equipment) with urinary drainage bag measurement with handwashing*. "We really master PPE applications, and how to wear them properly for personal and patient safety, in this skill mastery," stated DeVries. The next chapter focused on body mechanics and how to safely move patients and manage standing for long periods of time, specifically in PPEs. "I actually surprise students with this project, only mentioning ahead of time that on the day involved we will be wearing scrubs and standing for two hours in PPEs," stated DeVries.

DeVries Farms, a local pumpkin farm on Cleveland just north of Glenlord, generously donates large carving pumpkins for the project. Students arrive on the day of the project and realize they will be carving a pumpkin in full PPEs while following a patient care model. While wearing PPEs, caution is used to avoid both cross contaminating pumpkin innards and sharps related incidents. If students have an "incident" they are sent to "human resources/employee health." It's there where they have to physically "jump through hoops" as a metaphor for the experience they would have after a needlestick of body fluid exposure in the workplace. The pumpkin-ectomy project is a useful and fun way to experience what it's like to perform a complex task while in PPEs and not contaminate yourself.

WOODSHOP

The Lakeshore High School woodshop was shined and organized over summer break to welcome our full-time instructor, Hanns Heil. As a new 2022 hire, Heil is here to teach woods and other industrial arts classes.

Heil led woodshop students in their production of 4' and 8' picnic tables. Most of the tables were sold to raise funds for new tools and equipment for the shop. Always looking for fundraising opportunities, Heil has brought wooden pen turning to the woodshop. He and his students are able to keep an inventory of the pens for sale in the school store.

To celebrate Michigan's apple harvest, Heil brought his cider equipment for a day. All of his classes were able to make fresh apple cider and sample the fruits of their labor, what a sweet day that was!

Hanns-Georg Heil
Industrial Arts,
Lakeshore High School
Hanns received his Bachelor's Degree from Western Michigan University and has teaching experience from WMU, Kalamazoo, Bridgman, and Eau Claire Schools.

Picnic tables were built and sold to raise funds for new tools and equipment for the woodshop.

Lakeshore High School Woodshop students created 4' and 8' picnic tables.

Students made apple cider by hand on Heil's cider equipment.

Heil has brought wooden pen turning to the shop and keeps an inventory for sale in the school store.

SKYLER NEWCOM
Skyler Newcom from Lawrenceville, Georgia graduated with a Certificate of Achievement from the School of Dance at the University of Arizona and is certified in the Beginning Level of the Nan Giordano Certification Program®. Through the Medici Scholarship, he was able to study at the Perry Mansfield Summer Camp and perform with Stacy Tookie and her company. Skyler performed "Na Floresta" by Nacho Duato while in college and was honored to dance in what he considers his most challenging duet role to date, "All For You" by Adam Houston in the 2020 Giordano on Giordano show.

BERRIEN COUNTY DANCERS

BCD Winter Concert

The Berrien County Dancers will hold their Winter Dance Concert on Thursday, December 15 and Friday, December 16 at 7:00 P.M. at the Lakeshore Community Auditorium.

Tickets go on sale Monday, December 5, 2022. General admission tickets are $7 at the door. Age 11 and under are FREE with parent admission. Virtual viewing may be available, more information at a later date.

The concert will feature works by Theresa Graziano (BCD Artistic Director), Skylar Newcom, and members of the Advanced Dance class.

Thanks to the generous support of Lakeshore Public Schools and the Lakeshore Excellence Foundation, Berrien County Dancers will host one guest artist during winter semester. Skylar Newcom, a company dancer with Giordano Dance Chicago, will be working with all BCD classes. He will also set choreography on the Advanced Dancers who will perform his piece at the 2022 Winter Concert.

GRANT APPLICATIONS ARE NOW OPEN!

Turn Your Educational Idea into Reality with the Help of LEF

It's now easier than ever to apply for LEF grant funding. We've updated our grant application system and timeline to help streamline the process for students, staff, and teachers at Lakeshore Public Schools. If you think you have the next great idea for our schools, we'd love to hear about it. We're currently accepting submissions for the following grants:

Professional Development

Apply NOW – January 31

The Professional Development Grant is for staff who seek to bring continual energy, talent and passion to their roles. Do you have a great opportunity to develop and strengthen your professional talents and skills by attending a conference, seminar, workshop, college course or other experience?

Patti Florian Student Enrichment

Apply NOW – March 12

If you are a Lakeshore student in any grade, kindergarten through high school, this grant may be of interest to you! Patti Florian Student Enrichment Grants are awarded for activities or events that promote self-improvement through exploration, discovery, study and interaction.

Foundation Project

Apply NOW – January 31

The best ideas in education come from teachers. If your proposal costs over $2,500 you should consider applying for a Foundation Project Grant. Do you have a big idea that would benefit a large constituency of Lakeshore students, staff, and/or the community?

Staff Support

Apply NOW – January 31

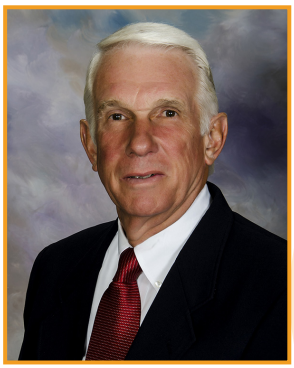
Are you a Lakeshore employee with an idea for a quality educational experience that would benefit Lakeshore students, staff, and/or the community? If your proposal costs up to $2,500 and could be completed within the year following the grant award, you should consider applying for Staff Support grant.

LEFONLINE.ORG/GRANTS/

LEF
LAKESHORE
EXCELLENCE
FOUNDATION

Excellent schools are the foundation of excellent communities. When you invest in Lakeshore Public Schools through the LEF, you are investing in the quality of life in our community both today and tomorrow.

GLOBAL COMPANY SUPPORTS LOCAL PUBLIC SCHOOLS



J.C. Anderson, Chairman

Many of you have either heard or read about the community-oriented golf outing that Whirlpool Corporation hosts in August each year. This event started in 2003. Having retired from Whirlpool after 39 years, and being the Chairman of the Lakeshore Excellence Foundation (LEF), I have a very unique perspective on this event. After reading this, I hope you have a greater appreciation for the significant favorable financial impact the outing has on our local community, several non-profit organizations including the LEF, and our Lakeshore students.

Initially, the outing was focused on creating a large charitable donation for the Boys and Girls Club of Benton Harbor (BGC-BH). Jeff Fettig, Whirlpool Chairman and CEO at the time, led the critical thinking devising a plan to raise funds for use at the BGC-BH. An invitation was sent to Whirlpool's major suppliers of services, parts, and components. They were invited to come to the St. Joseph/Benton Harbor area for a long weekend and play three challenging golf courses…Lost Dunes, Point of Woods, and Harbor Shores. Along with the golf came the dining each evening and a large buffet on Monday night (the last night) at Harbor Shores. Supporting participants were made aware that the proceeds would be presented to local nonprofits.

For the supplier participants there is great golf, gifts, dining, exposure to Whirlpool leadership, and rubbing shoulders with fellow suppliers. The supplier cost to participate in this event is fairly steep. In the end, however, everyone realized that this is a great cause, more recently netting approximately $2,500,000 for distribution to our local non-profits. As mentioned, BGC-BH was the initial recipient of the donation. This provided for the development of their improved facilities and programming. The generation of $2,500,000 certainly did not occur the first year but the annual net figure has continued to grow over the 19 annual outings to this incredible amount.

As the success of the August outing grew, Whirlpool continued to support the BGC-BH but then brought in the First Tee as a charitable recipient. Then, in 2014 the three local school foundations (St.Joseph, Benton Harbor, and Lakeshore) were also included in the funds distribution. Our first check in 2014 was $150,000 and this year we were blown away with a check for $250,000! It is great to receive this check from Whirlpool on behalf of the LEF knowing what this amount does for our fundraising. In a nutshell, a sizable donation like this enables us to speed up the implementation of projects and gives us the capability to think about bigger projects, which create greater opportunities for educational excellence throughout the Lakeshore School District.

On a personal note, as a Whirlpool retiree, I take a lot of pride in my former employer supporting the local community, staff and students in such a grand manner. In this day and age, public corporations are under great pressure for earnings improvement but even with that burden, Whirlpool has been able to provide this generous funding. We live in a better community as a result of Whirlpool Corporation providing resources to help develop our students and staff. We are continually grateful for their support within our community.

Now….you know the rest of the story!

J.C. Anderson
Chairman, Lakeshore Excellence Foundation

DIVERSITY, EQUITY, AND INCLUSION TRAINING

The Lakeshore Excellence Foundation was recently joined by Lakeshore High School Prism Club and Diversity Club members, and local residents, for a special Diversity, Equity, and Inclusion training session.

Afiya Latham, Co-Owner of Express Employment Professionals

Afiya Latham is Co-Owner of Express Employment Professionals, an award-winning staffing company in the U.S., Canada, and South Africa. Recently named a Corp! Magazine Diversity Business Leader, Afiya serves as a coach, mentor, and public speaker empowering women of all ages to cultivate their talents and seize their opportunities. As a leader of DEI Training, she is a vital reference and first contact for companies seeking to implement or expand DEI programs within their organizations.

The event, organized by LEF's DEI committee, was offered as part of our organization's ongoing commitment to Diversity, Equity, and Inclusion in an effort to reduce the achievement gap and support building a culture of inclusion in our school district.

The LEF Board of Trustees welcomed local entrepreneur and DEI Trainer, Afiya Latham, to Lakeshore High School, where she offered insight into the many benefits of a diverse workforce, and how we can all better think with a broader perspective to achieve a deeper trust from our students and staff, that in turn creates an environment where all children receive the best education possible.

Through interactive exercises, discussion, and explanation, those in attendance walked away with a better understanding of what each component of DEI truly means, and how it can be put into practice to make sure every child has the ability to succeed. One example Latham used explained the difference between equity and equality.

"Equality means each individual or group of people is given the same resources or opportunities," said Latham. "Equality is not enough. Equity recognizes that each person has different circumstances and allocates the exact resources and opportunities needed to reach an equal outcome."

Latham went on to explain that belonging and equity are connected, and pressed our district and educators to ask students what they need to do well and what that looks like. She said by collecting data on these initiatives the district can hold itself accountable - achieving true excellence.

"Our community is getting more diverse, not less," said Latham. "We have to plan for it to make sure we are serving the needs of all students who live here and go to our school district. The school board and the superintendent have a wonderful opportunity to set the tone for our community by supporting policies that will keep all students in an equitable position when it comes to academics, the social learning community and to prepare students for being residents of a greater and even more diverse world beyond where we are right now."

PROFESSIONAL LEARNING COMMUNITIES

Collaborating to ensure all students succeed

Angie White from Solution Tree.

Teachers and administrators from all different levels in our district gathered this past October to learn how to respond when students, or parents, need help with the learning process. The training, administered by Angie Freese, is part of the district's and LEF's commitment to Professional Learning Communities or PLC's. PLC's empower educators to work collaboratively in cycles of collective inquiry and action research to achieve better results for the students they serve.

Freese comes to Lakeshore from Solution Tree - widely regarded as a global leader in professional development for educators. With over two decades in education, Freese brings a unique blend of experiences that include: classroom teacher, building administrator, curriculum specialist, and district leader. This is the second year the district has worked with Freese to help LPS educators and administrators tackle challenges that would otherwise prevent students from succeeding in the classroom and beyond. The training comes on the heels of a summer conference where 45 Lakeshore Public Schools employees attended an in-person professional development session in Grand Rapids.

"Without LEF funding we could not offer continued professional development opportunities like these," says Lakeshore Superintendent Greg Eding. "The district uses Title II funding to pay for Ms. Freese to come and work with our staff, and LEF pays for the summer PLC's. When combined, the district's and LEF's commitment allows us to take the theory of how best to improve learning outcomes for students and put that into practice."

Professional Development for Current Staff

CHALLENGE: Continuous learning among our educators is critical. We had established late-start Wednesdays to allow the staff to collaborate, but we hadn't given them the ongoing training to help make the best use of this time.

SOLUTION: LEF is funding training for all staff in support of PLC's – **Professional Learning Communities**. The outcome of this grant will result in continuous job-embedded training for educators and improved learning for all students, every day.

$225,000 Investment

LEF LAKESHORE EXCELLENCE FOUNDATION

LEF has committed $225,000 over three years to fund the training of our staff on PLC's. To learn more, or donate, visit: https://lefonline.org/

Grants In Action

BUILDING SUSTAINABLE RELATIONSHIPS

A wise person once said "A relationship is not based on the length of time you spend together, it's based on the foundation you've built together."

Lakeshore's Sister School Exchange Program (SSEP)

Lakeshore's Sister School Exchange Program (SSEP) bravely embarked on a 3 week trip to Mönchen-gladbach Germany last spring. Our group was the first school exchange to travel since the onset of COVID-19. During their time in Germany, our students along with Ms. Amy Perkins and Mr. Jeff Yauchstetter were housed with their partner families, living with and attending classes with their peers. The group also collaborated together on a sustainability-focused project. Both the German participants and our Lakeshore group visited an active lignite mine as well as a wind farm, learning about clean energy.

At the end of September our Lakeshore hosts welcomed their German counterparts for a 2 ½ week stay to enjoy our community and beyond. During their time in the states, host families helped the German students experience life here, touring a variety of interesting places in Michigan, Illinois and even as far as Kansas!

While in our community, both the host students and their German counterparts continued their engagement with sustainability, learning from Cook Nuclear Plant, Whirlpool Corporation, a conversation with Congressman Fred Upton and visiting a solar array with Inovateus Solar in South Bend, Indiana.

The days flew by, with each of the families who participated wanting to spend a few more weeks together with their German visitors. Although the days weren't long enough, the foundation of lifelong friendships were forged. These are relationships that have broadened the perspectives of all who participated.

Lakeshore Excellence Foundation is proud to sponsor a portion of this amazing Sister School Exchange Program through a Foundation Grant.

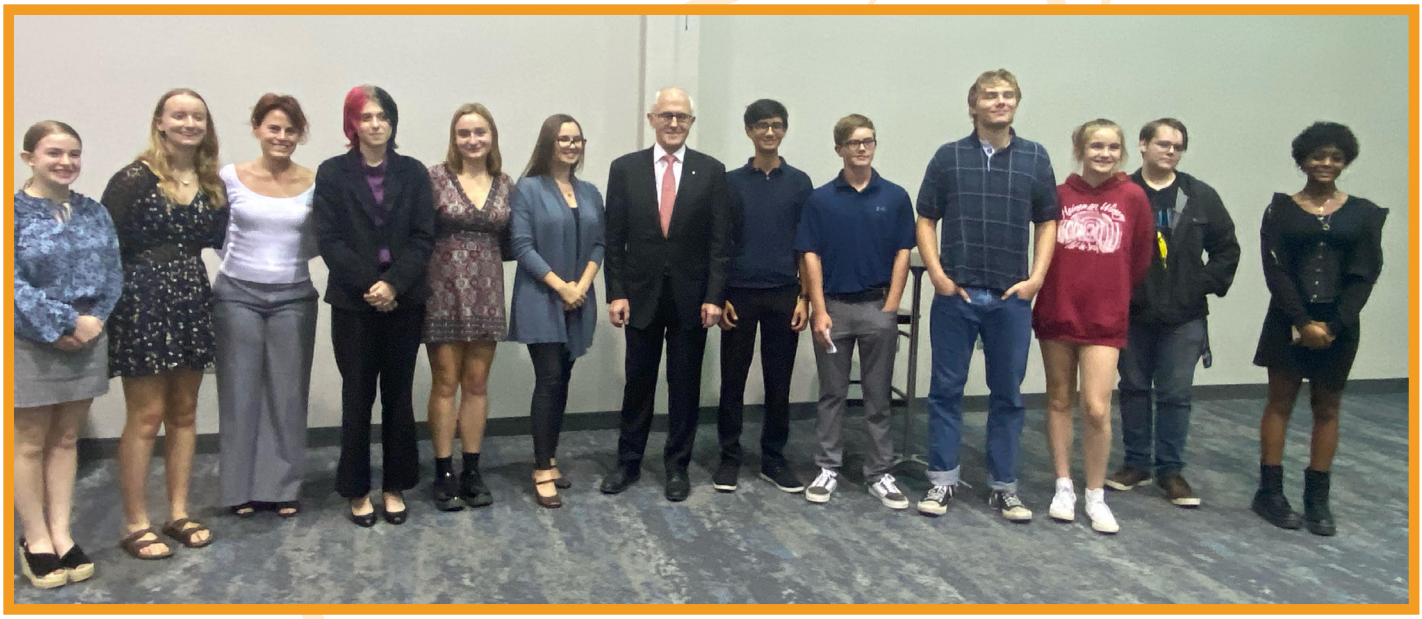
LMS: NEW BOOKS

Lakeshore Middle School students were excited to see new books when they returned to the classroom this fall. A grant, awarded by the Lakeshore Excellence Foundation, allowed teachers to purchase new copies of student favorite reads, plus add new titles and authors for LMS book clubs to enjoy! At LEF, we know Reading Matters, and we're happy to see the students so captivated by the new additions to their classroom libraries.

Malcolm Turnbill

ECONOMIC CLUB SPEAKER EVENT

How many high school students get the opportunity to meet famous people on a regular basis?



Students enjoy the Economic Club os Southwestern Michigan Speaker Series.

Lakeshore Excellence Foundation creates that opportunity on a regular basis for our students at Lakeshore High School and other neighboring schools through an ongoing grant. In September, students were able to get up close and personal with former Australian Prime Minister, Malcolm Turnbull, who spoke at the Economic Club of Southwestern Michigan Speaker Series.

Turnbull is an interesting guy whose career spans journalism, law, business and politics. He entered the Australian House of Representatives in 2004, then served as the 29th Prime Minister from 2015 to 2018. Throughout his political career, Turnbull has been a strong advocate of environmental issues with a focus on water management and renewable energy.

Students who attended were able to ask The Honorable Malcolm Turnbull questions in a short session before the speech he gave to the larger audience.

If you are a local high school student that is interested in taking part in one of these unique opportunities, please contact your school's guidance counselor.

LEF ONLINE AUCTION

The annual LEF Online Auction is just a few months away and we are on the hunt for fun prizes.

We're calling on business owners, and individual donors, to consider donating gift certificates, items, and experiences for our virtual event that raises thousands each year. We are always so thankful for the support we receive from the local community. It makes a world of difference for the students, staff and community of Lakeshore Public Schools. To donate to the LEF Online Auction, contact Lori Marciniak, our Vice Chair of Projects, at lorimarciniak3@gmail.com. Stay tuned for your chance to bid during our event – the gavel drops in the New Year!

A DREAM COME TRUE

Paving the way for unlimited opportunities.

Have you ever dreamt of becoming a football player or a coach in the National Football League (NFL)? Chances are, if you are female, you might have given it a fleeting thought but never believed it could become a reality. Football has traditionally been a man's sport, played by men, coached by men and officiated by men.

But times are definitely changing.

As a part of its ongoing commitment to diversity and inclusion, the NFL hosted its sixth annual Women's Careers in Football Forum this past March. The forum was created to break down the barriers to inclusion and connect women with leaders in the professional football space to opportunities within coaching, scouting and football operations. According to The Institute for Diversity and Ethics in Sport (TIDES), women made up about 38.8% of the NFL league office roles, 25.3% of teams' senior administrations and 1.5% of team assistant coaches last season.

Assistant Coach Suze Miller and some of the team managers.

This season, Lakeshore Football broke barriers locally and made history by hiring its first female Assistant Coach, Suze Miller. She proudly posted on her social media feed, "A dream came true. I ran through the Lakeshore Lancer football helmet...not as an alumnus, or a Mom, or a teacher...I ran through the helmet as one of the coaches – the first female coach in the Lakeshore Football Program."

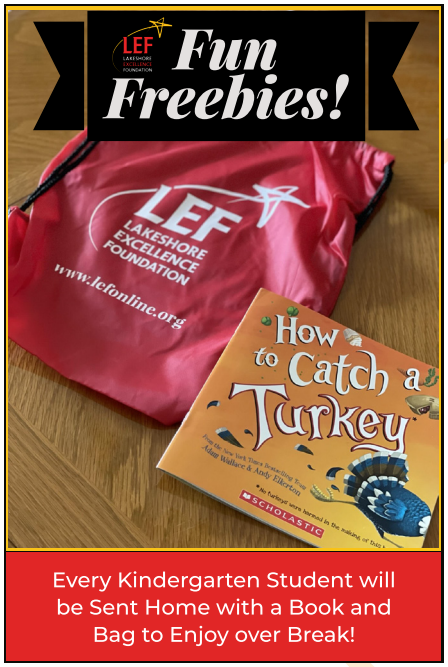
By day, you'll find Mrs. Miller in the high school teaching English and serving as the Academic Challenge Coach. During the football season, her days blend into nights as she takes on her second role as one of the Assistant Football Coaches. Miller is in charge of the program's 11 managers who all just happen to be female as well: Ava Barker, Addison Dale, Emma Muzumara, Azusena Martinez-Gutierrez, Mia Norbey, Anna Roe, Maddie Schmidt, Maya Schmidt, Krystina Smith, Linden Warnock and Grace DeBest. They record practices and games along with helping the equipment managers ensure the team has what they need. Essentially, if the players and coaches need something, this group is on it!

Miller never thought her career would involve football. As a 1999 graduate of Lakeshore High School herself, Miller was a member of the marching band and one of the track captains, competing in shot put. Miller said "Pre-August, I knew little if anything about football. I didn't think about plays. I usually picked the Super Bowl winners by the team's colors. I laugh at how naive I was." Miller loves that this opportunity allows people to be a part of something bigger than themselves. "The managers and I are here because we love being part of the team. We all have our roles and we use our strengths to find our spot within the team," said Miller.

Continued NEXT PAGE.

BOOKS FOR KINDERGARTEN STUDENTS

Parents of Lakeshore kindergarten students will want to watch for a special delivery this Thanksgiving holiday. As part of our commitment to enrich the lives of every student, from the moment they enter school, the Lakeshore Excellence Foundation purchases books each year for the incoming kindergarten class. Every kindergarten student from our three elementary schools will receive a new book and LEF drawstring bag to bring home and keep this Thanksgiving! We hope children enjoy turning the pages of these fun editions as their love of reading grows!



Every Kindergarten Student will be Sent Home with a Book and Bag to Enjoy over Break!

WHAT WE DO

The LEF collaborates with staff at Lakeshore Public Schools to identify and support worthy projects that will enrich and supplement the learning opportunities in our schools. We also make a variety of grants for students, teachers, staff and community members to support innovation and professional development.

Visit lefonline.org to learn more about LEF!

Our mission is to "acquire and distribute resources in support of Lakeshore Public Schools for programs and projects aimed at enriching or supplementing learning opportunities for students, staff, and community."

What happens on the football field isn't all that different from what happens in the classroom. As an educator, Miller believes that it is her job to find a connection with each student and build a relationship. "Taking on the role as an Assistant Coach, I can see skills learned on the football field helping my students academically in the classroom." When she originally took the field, Miller was a bit nervous and unsure of herself. She became a student out on the football field. Slowly, they all started gaining confidence. Miller loves that the players, who are her students in the classroom, are also teaching her things. Together, they've come a long way.

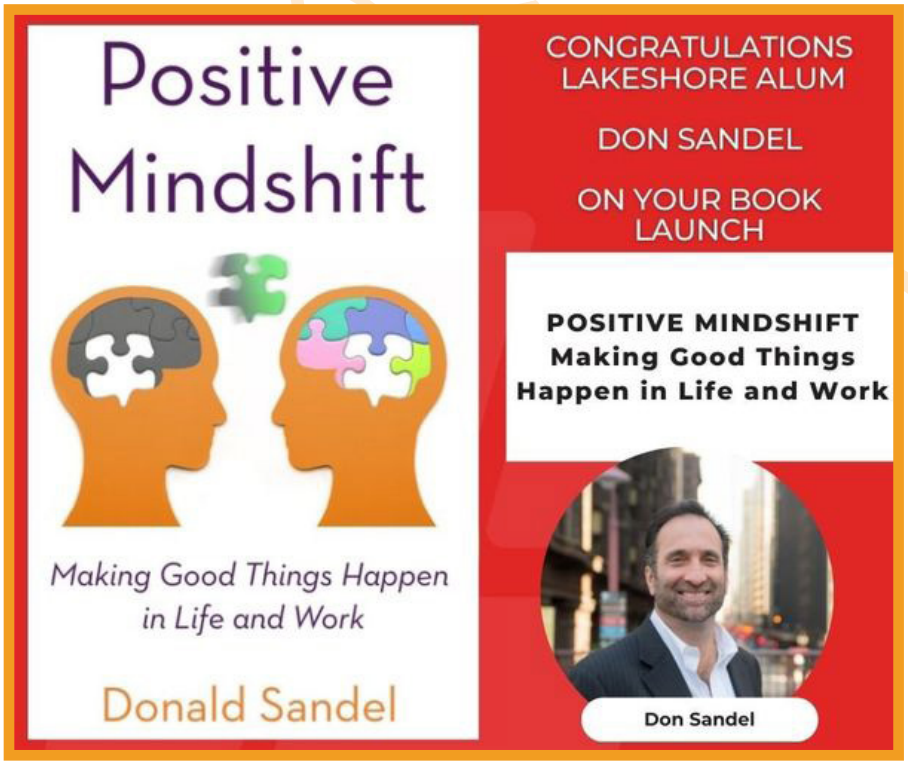
In a world that is so divisive, this is an opportunity to unite and while working with each other's strengths, empowering each other, the team, and the community.

Football managers, along with their teammates, are learning real world skills that are critical in the world we live in today. Responsibility, optimism, time management, teamwork, integrity, listening skills, honesty and most important: grit. The perfect "plays" in life don't always go the right way. It's at these moments when a person finds out what they are made of.

Coach Miller has a message for everyone, "Do something new. Do something challenging. And do something scary every so often; these are the true secrets to staying young."

Lakeshore football is breaking down barriers to inclusion. If a coach is qualified, knowledgeable, caring and respected, the important character lessons learned through sports will be taught regardless of whether the coach is a man or a woman. Removing these barriers to inclusion based on old gender roles may help to make more dreams a reality.

How will you practice inclusivity in your daily life?



CLASS OF 1973!

Attention Lakeshore High School Class of '73 - Your 50 year reunion is approaching fast, and the Lakeshore Alumni Association wants to make sure your class is informed about this fun, annual event.

The Class of 1973 is sending out an invitation and "Save the Date" information for graduation and reunion festivities, which include dinner, music, and a special meet and greet for all in attendance.

Your Class contact is Robin Ross. You can contact Robin with questions at rrobinross@comcast.net. Receive important announcements and keep in touch with other Lakeshore Grads by filling out your contact information at: lefonline.org/alumni/get-registered/ Go Lakeshore!

REACH HIGHER RAFFLE DRAWING RESULTS

Three lucky winners were chosen during LEF's Reach Higher Raffle Drawing September 19, 2022.

Participants purchased tickets for a chance to claim monetary prizes and support Lakeshore Public Schools at the same time. Congratulations to our big winners: First prize went to Kevin Bushu, our second place winner was Noah Deitrich, and Steve Winkler rounded out the top three! All money raised will be used for LEF's mission that supports grants and educational programs for students, staff and teachers in our school district. Thank you to all who bought tickets to help support the cause! We appreciate your support.

CONGRATULATIONS TO OUR RAFFLE WINNERS!

1st Prize $3,000 - Kevin Bushu

2nd Prize $1,500 - Noah Deitrich

3rd Prize $500 - Steve Winkler

LEF LAKESHORE EXCELLENCE FOUNDATION

ART AROUND TOWN 2022

Celebrating Artists Since 2006

On June 7 we celebrated 19 young artists and their artwork that was selected to represent Art Around Town 2022, the annual program that showcases young talent throughout the Lakeshore Public Schools system. The reception took place at ***The Curious Kids Museum*** and we were thrilled to have a large group of students, families, teachers and LEF board members attend. The artwork was hung throughout the museum for guests to view throughout the summer, when it would be moved to various businesses throughout the area who "lease" the pieces to showcase for a year. Unfortunately, there was a fire in the museum that caused the artwork to go into "remediation hibernation" for the summer. It has recently been released to be "leased" for 2022!

CELEBRATED ARTISTS

Lakeshore High School: Michaela Norbey, Josh Tomlinson, Zetah Smigielski, Baylee Price
Lakeshore Middle School: Josephine Simpson, Sophie Waller, Logan Hendrix, Ami Bhatti, Regan Schmidt
Roosevelt Elementary: Tiegan Dolezan, Adelle Prosser, Lucia Aranda
Stewart Elementary: Hadley McLeod, Cooper Roberto, Sophia Ryan,
Hollywood Elementary: Taylor Marquardt, Piper Kuhl, Wyatt Florian, Kennedy Arney

Thank you to **Nancy Anderson, Hilary Burchett, Holly Davis and Liz Andrews,** the art teachers who help foster and expand the talents of our students and pull pieces of artwork throughout the year that are submitted to be juried for Art Around Town. Thank you to professional artist and Manager of Education and Interpretation at Krasl Art Center, Nathan Margoni, for being our juror this year.

VIEW AAT ART AT: lefonline.org/art-around-town

Since 2006, the Lakeshore Excellence Foundation has sponsored Art Around Town, featuring student artwork placed in the St. Joseph and Stevensville area. LEF supports professional framing and seeks local businesses that will "lease" the artwork for the season. Each piece can be sponsored and displayed in your business for $200. All donations for the lease help cover the cost of framing and assist with future LEF programs.

Thank you to the businesses that have leased and proudly shown student artwork in 2019 (the last year artwork was juried and placed due to Covid) and to those who will lease the newly available pieces in 2022!

If you are interested in sponsoring budding young artists, contributing to LEF, or learning more about Art Around Town, please contact, Chair of Art Around Town and LEF Board Member, Heather Valenziano, at: hvalenziano@me.com

Artist: Logan Hendrix

Artist: Michaela Norbey

LAKESHORE Alumni

Ways to keep in touch ...

1. Join the Lakeshore High School Alumni Facebook Group:
   Search for "Lakeshore High School Alumni" and Join the Group

2. Register on the LEF website for email updates: **lefonline.org/alumni/get-registered**

If you graduated from Lakeshore High School, this is a great way to stay in touch!

Lakeshore Excellence Foundation
ENDOWMENT FUND

The Endowment Fund is our long-term strategy to funding the LEF mission of learning for generations to come.

Annually, the LEF Board evaluates the health of the fund, makes contributions based on giving and project needs, and reinvests the earned interest. If you are interested in learning more about the Endowment Fund, please contact J.C. Anderson at (269) 921-2513 or email at anderjcna@gmail.com.

THE FACTS

The state funding for public schools in Michigan continues to be a challenge and Lakeshore is in the bottom 25% when it comes to funding. Yes, 75% of Michigan public school districts receive more state funding on a revenue per student basis!

SIX WAYS TO GIVE

1. Donate conveniently online
2. Swing those clubs
3. Become a Lakeshore Lancer Leader
4. Give us your two cents
5. Endowment Fund
6. Planned Giving

DECA

In 1946, the Distributive Education Clubs of America (DECA) organized around an ambitious goal: to improve educational and career opportunities in marketing, management and entrepreneurship for students.

Twenty-two marketing students attended the DECA State Leadership Conference in East Lansing.

DECA State Leadership Conference

Sarika K. and Mason J. show off their free swag from the vendor booths.

Students began the DECA State Leadership Conference with a networking dinner and keynote speaker, followed by a hands-on group activity called *Operation Engage*.

Friday's opening session opened with keynote speakers Tom Izzo, head MSU baseball coach and former player Joshua Langford. The students also participated in several break-out sessions covering various topics including:

- How to be a Kitchen Table Entrepreneur
- What is the Business of Supply Chain Management?
- Customer Experience Management
- Networking 101
- Your Personal Brand

The two-day conference was filled with meeting new people, developing interpersonal skills, leadership skills and communication skills, as well as learning more about the DECA organization.

"The trip would not have been possible without the assistance of business teacher John Vroon and John O'Donnell who assisted with transportation and chaperoning," stated Chapter Advisor Tonya Jahnke. "A special thanks also to the LEF organization who helped to offset the cost of this trip for each student in attendance."

DECA prepares emerging leaders and entrepreneurs in marketing, finance, hospitality and management in high schools and colleges around the globe.

MATH & SCIENCE CENTER

The Math & Science Center (MSC) students have had a busy fall with several math, science, and engineering related events. The MSC is a high school program geared toward gifted and talented students who enjoy learning and challenging themselves academically.

The MSC freshmen traveled to Suttons Bay to do authentic scientific research aboard the Inland Seas Schooner. Students collaborated to answer research questions using professional limnology equipment and historical Schoolship data. Each student team focused on a different research topic from invasive species like the Round Goby and Zebra & Quagga Mussels to water quality and microplastics. They then completed a scientific lab report, board, and presentation after returning to the classroom to teach their peers about their specific research topic. During the trip, students also had the opportunity to learn about the role that salmon play in the Great Lakes during a tour of the Platte River Fish Hatchery. They also collected data from different species of trees while hiking in Sleeping Bear Dunes, which they analyzed in their math and computer classes upon returning to school.

Suttons Bay

The MSC freshmen and sophomores celebrated Mole Day with several fun and educational activities.

A mole is a unit of measurement in science that helps chemists measure very large quantities of very small particles (like atoms or molecules). One mole is equal to 6.02 x 1023 particles, so Mole Day is officially celebrated on Oct. 23 at 6:02 am/pm. MSC students participated in the "Molympics" consisting of several different mole-related events. They finished off the celebration with a cake decorating contest to see which group could design the best mole.

The MSC juniors and seniors visited the College of Engineering and Applied Sciences at Western Michigan University.

The students made paper from pulp in one of the paper engineering labs, competed in a design challenge with the industrial engineering department, and took a tour of the facilities. The activities were run by WMU juniors and seniors that are in the engineering program. We ended our afternoon with a Q&A session, where our students asked questions about academics, various college opportunities, and college life both on and off campus.

Lakeshore Marching Band

LAKESHORE BANDS

Continue Their Proud Tradition of Excellence

Lakeshore Lancer Marching Band

The Lakeshore Lancer Marching Band presented its 2022 field show entitled "Fahrenheit 2800" at numerous events this fall, including four home football games, one Scholastic Marching Band competition, and four MCBA (Michigan Competing Band Association) competitions. Lakeshore hosted its 19th Annual Marching Band Invitational at Al Stockman Stadium, where 14 area bands came to perform. At the Reeths-Puffer MCBA competition, the band earned a 1st place finish, also winning the awards for Best Music Performance, Best General Effect, Best Color Guard, and Best Percussion. On November 5, the band traveled to Ford Field in Detroit to compete in the MCBA State Finals. The band had their strongest performance of the season and were the bronze medal winners in Flight 3!

Middle School Band Night

On October 21st, at halftime of the varsity football game, the 7th and 8th Grade Bands joined the Lancer Marching Band for a rousing rendition of Jon Bon Jovi's "Livin' on a Prayer." It was a stunning sight as 194 proud musicians performed to the delight of cheering fans. All of the middle and high school bands will perform again on December 19th for the Holiday Collage Concert at 7 P.M.

Welcome New Band Directors

The Lakeshore family is excited to welcome two fantastic new band directors. Joining the current Director of Bands Matthew Pagel are: **Christina Baumann** and **Christopher Grapis**. Mrs. Baumann, a Stevensville resident, comes to us from New Buffalo schools. Mr. Grapis, a Lakeshore alum, most recently taught in Holland Public Schools. Welcome to them both!

5th Grade Band

After a series of meetings with Mr. Grapis, Mr. Pagel and Mrs. Baumann, the Lancer Class of 2030 is bursting at the seams with excited band members. 5th Grade Band rehearsals started in October, and since then we have been meeting with 134 new members who are eager to continue their journey in music education and in band.

With 62% of the graduating class of 2030 participating, one of the highest percentages in Lakeshore Band history, we are sure to make a mighty sound!

The 5th grade concert will be on May 16th at 7 P.M.

LAKESHORE LANCERS

Creative Concepts

The second year of Creative Concepts has proved just as successful as the first!

Students have the opportunity to try new activities and learn about the world around them. We are very thankful for the community partnerships we have, which help bring this curriculum to fruition.

Creative Concepts is a semester-long elective, taught by a Science and Social Studies teacher from the grade level of the enrolled student.

Students can expect to be graded on daily positive participation in activities or projects. The course has flexible topics, depending on teacher expertise and student interests. Topics may include: science enrichment, social studies enrichment, guest speakers, strategy games, research and present a passion project, art and creative projects, physical activities, and other life skills.

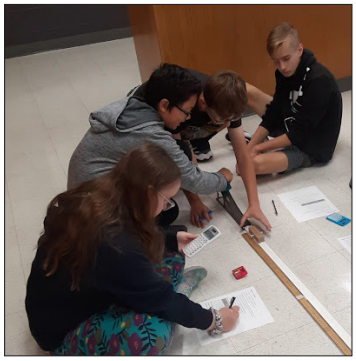
MIDDLE SCHOOL

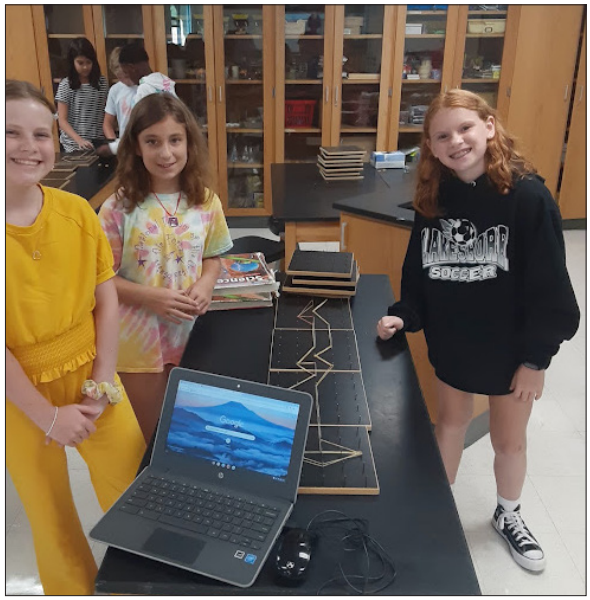
New Science Curriculum at LMS

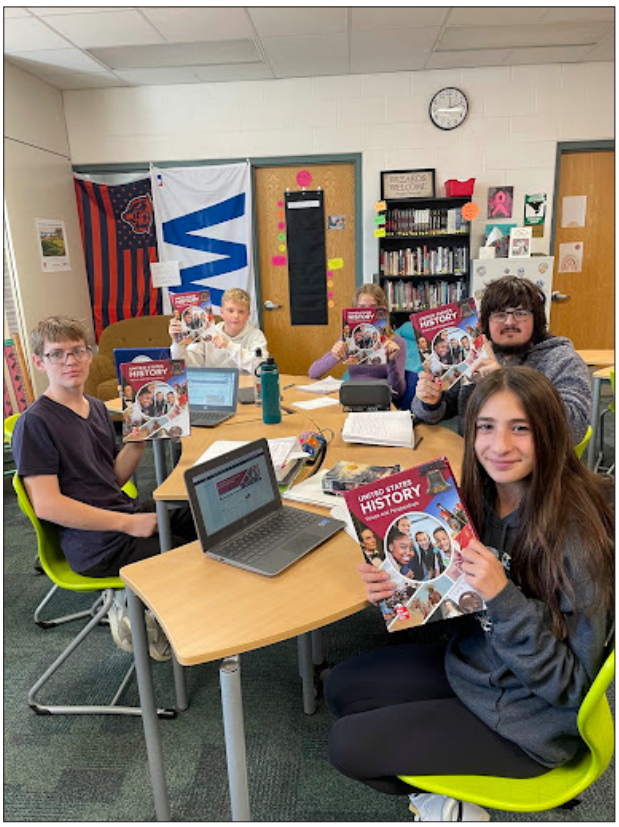
Middle School received new curriculum materials this school year.

Staff and students are enjoying this new approach to learning science. Following the national science standard (NGSS) these materials use investigative phenomena and hands-on investigations to teach societal issues.

Students maintain a science notebook that contains notes and data from the activities and lab investigations. They communicate daily using academic language and learning to work with others in the classroom.





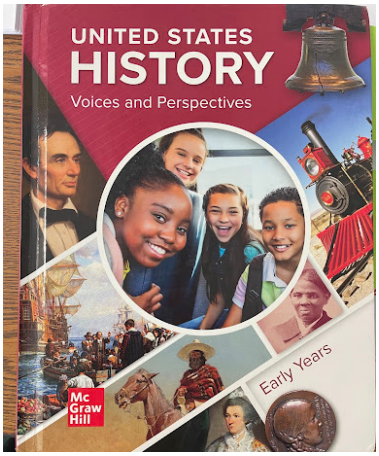


Lakeshore Middle School Updates Social Studies Textbooks

LMS history teachers have updated their resources!

The new McGraw Hill Social Studies textbooks include an amazing online component that facilitates choice and remains current with regular lesson updates.

Sixth grade students will be inspired by their new Geography texts, seventh graders will understand the relevance of Ancient World History, and eighth grade students are becoming empowered and informed active citizens of the United States! Learning is personalized, relevant, and engaging.



Most importantly, these resources can be used to engage in inquiry. Ask your child about their history lessons today!

ELEMENTARY NEWS!

Connecting With Community

The Stewart Family is always looking for opportunities to connect with our community through volunteers, field trips, guest speakers, and other enrichment activities. So naturally, when *CrownPointe Senior Living Community* reached out about a special opportunity, our kindergarten classes jumped on it!

After their fall parties in the classroom, kindergartners from **Stewart Elementary** got to walk to CrownPointe to trick-or-treat. Residents lined the halls with bowls of candy on their laps and big smiles on their faces as our littlest learners walked from person to person saying, "trick or treat!"

Kindergarteners were certainly excited for the candy, but the connections they made with residents that day were even sweeter than the treats. Many children complimented the festive hats, sweaters, or costumes the residents wore and all children were sure to greet and thank each person they passed. We talk a lot about showing **R**espect at Stewart as a part of our P.**R**.I.D.E acronym. Respect is defined as showing kindness and care to people and things. The respect shown for the elderly in our community during this event was evident and so special to see.

Trick-or-Treat at CrownPointe.

A big thank you to CrownPointe for setting up this opportunity and allowing our kindergartners to visit.

There was not a single child or adult who left without a huge smile. Many kindergartners talked about the visit as their favorite part of Halloween. **We hope to make it an annual tradition!**

Murray on the Move

Murray is a one-year-old Australian Shepherd/Golden Retriever mix that serves as **Hollywood Elementary's** newest staff member. Murray hangs-out at the door every morning and greets incoming students with smiles and positive energy. Throughout the day, Murray accompanies Mrs. Hazzard-Reed to *Social Emotional Learning* lessons in all of the classrooms. Murray's favorite part of the day is visiting with 2nd-5th graders during their lunch bunches. Murray is certified through the *Alliance of Therapy Dogs*.

Writing Celebration

Second graders in Mrs. Erickson's class at **Roosevelt Elementary** recently held a writing celebration upon completion of their ***Small Moment Writing*** unit! During the celebration students read each other's stories and gave their classmates positive feedback, compliments and a sticker. Students enjoyed "fancy" decorations in their classroom on this special day. Later, children were able to bring home a writing portfolio full of their *Small Moment* stories.

Garden to Table

Several years ago, thanks to a grant from the Lakeshore Excellence Foundation, **Hollywood Elementary** was able to add a new structure to its school garden. This "kitchen cottage" is simply a shed, which includes a small greenhouse and a work space. Students from the Lakeshore High School woodshop created and donated two countertops with sinks that could be hooked up to a water supply. These additions allow for "garden to table" experiences, taking fresh produce directly from the school garden or local farms and creating healthy snacks.

Karen Affholter, a Hollywood parent and culinary photographer, has been volunteering her time and talents to work with the children of *Hollywood's Garden Leaders' Club*. Here she shares some of her thoughts:

"It has been such a joy volunteering with *Hollywood's Garden Club* this year. I am especially excited to be a part of the culinary portion of the *Garden to Table* work we have been doing in our new kitchen cottage.

Students enjoying the "kitchen cottage."

When planning snacks for Garden Club, we always try to focus on seasonal produce prepared as simply as possible so the true flavors of the fruit or vegetable can be appreciated and enjoyed.

One snack we prepared that really stood out to the students was kohlrabi. The kids were preparing a snack just a few feet from where it was grown. We served it both raw, and simply sautéed with garlic (also grown from the garden) and many kids left claiming it was their new favorite vegetable!

Planting a seed, caring for it as it grows and preparing it to be enjoyed in community really helps bring things full circle for the students. They understand the complete journey of the food we grow and appreciate the nourishment that gardening gives their minds and bodies.

Thanks to the *Garden to Table* work we are doing at Hollywood, we are growing passionate nature loving kids who care about where their food is coming from."

Thank you, Karen, for sharing your love of gardening and cooking with the children of Hollywood Elementary School!

A Community of Support

Annually, **Hollywood Elementary** partners with organizations in our community to support and provide our students and their family members with the things they may need to make the upcoming winter season and holidays memorable for them and their loved ones. In partnership with the *Women's Service League*, Hollywood families collect, clean, sort, organize and outfit those in need of warm winter gear. This year, we were able to provide coats, etc. for more than 30 individuals ranging in age from two to adult. In addition to our coat drive, Hollywood Elementary School also collaborates with our *Student Lighthouse Team* (SLT) to run a food drive in time for Thanksgiving. The SLT makes the posters, the students bring in non-perishable food items, and 5th grade students sort and fill baskets for approximately 5-12 families a year. Money raised from special Spirit Days is used to purchase turkeys, pies and whipped toppings, for each family. Additionally, Hollywood Elementary and various community organizations (ie. *Anytime Fitness, Stevensville Church, Anchor Church of God*, and others) team up to provide items for families in need during the holiday in December. Items provided may include clothes, toys, hygiene products and books for every member of the family. This year Hollywood Elementary School was honored to serve and provide for approximately a dozen families in our community. Happy Holidays to all!
